## NOTES

All information contained within this document subject to change without notice.

All vitreous china dimensions shown in these drawings are nominal and not to scale. Dimensions can vary within the tolerances established in the governing ASME A112.19.2/CSA B45.1 standard. It is important to consider this when planning rough-in and plumbing layouts.

NOTE: ADA urinal rim height requirements allow all heights 17" and below. Sloan strongly recommends roughing in the drain to achieve a 16 1/2" rim height or less to ensure compliance.
